EDUCATION

Washington University in St. Louis

Ph.D. in Computer Science; GPA: 4.00

St. Louis, MO

Aug 2023 – Present

Western Kentucky University

B.S. in Computer Science with Minor in Mathematics, Summa Cum Laude; GPA: 4.00

Bowling Green, KY

May 2019 – Aug 2023

EXPERIENCE

Pinterest

Aug 2025 – Dec 2025

- Trained foundational models for multimodal search as a ML intern with the Advanced Technologies Group.
- Developed training, evaluation, and deployment infrastructure on massive-scale data and compute.
- Proposed joint hypernetwork-encoder architecture for performant and scalable search across Pinterest's image indices.

Multimodal Vision Research Laboratory

Aug 2023 – Present

- Led collaboration over 4 universities with the National Center for Missing and Exploited Children to develop image search systems to support analyst investigations.
- Mentored BS/MS students in numerous projects across representation learning, reinforcement learning, and applied collaborations.
- Led collaboration with WashU Public Health in extracting built environment features with vision-language models to measure spatial inequities.

Student Researcher @ Penn State

May 2022 – Aug 2023

- Proposed the novel authorship obfuscation system ALISON based on greedy replacement of important part-of-speech sequences.
- Demonstrated that ALISON achieves 15% greater attack success while maintaining a higher degree of semantic preservation between original and obfuscated texts, all while reducing runtime by $> 10\times$.
- Performed label entropy, parameter, and interpretability analyses on ALISON.

AWARDS AND SERVICE

McKelvey School of Engineering CSE Outstanding Scholar Award

Computing Research Association Outstanding Undergraduate Researcher – Honorable Mention

Reviewer: NeurIPS, CVPR, ICCV, ECCV, WACV, ACMMM

SKILLS

Languages: Python, Java, C/C++, JavaScript, SQL, HTML/CSS, MATLAB

Libraries: PyTorch, PyTorch Lightning, HuggingFace, TensorFlow, NumPy, Pandas, Scikit-Learn, Stanza, NLTK, Captum, Matplotlib

ADDITIONAL

Major Coursework: Advances in Computer Vision, Nonlinear Optimization, Bayesian Machine Learning, Reinforcement Learning, Text Mining, Machine Learning, Advanced Algorithms, Automata Theory and Compilers, Data Structures and Algorithm Analysis

Other Coursework: Numerical Analysis, Multivariable Calculus, Discrete Mathematics, Linear Algebra

GRE: 336 (170 Quantitative, 166 Verbal), **5.5** Analytical Writing

US Citizen
